

1. The articles of Assoc. Prof. Dr Bui Trung Thanh on ISSN-0868 – 3336 and ISSN-0866-7056

1

Rice husk gasifier applies in the agriculture production

Journal of Thermal Science and Technology

No. 1.1995

7-10

2

The modern rice husks gasifier uses in agricultural products dryers

Journal of Thermal Science and Technology

No. 4.

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

July. 1997

4-7

3

Designing of rice husk gasifiers for agricultural products dryers

The electrification of agriculture with problems of industrialization and modernization of agriculture & rural

Publisher

Agriculture December. 1997

188-192

4

Paddy drying and storage in low temperatures

Journal of Thermal Science and Technology

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

No. 4.

In July. 1998

9-11

5

Research and designing a round circulation tower grain dryers

Journal of Thermal Science and Technology

No. 2.

March. 1999

6-7

6

Treatment equipment systems and drying for cassava pulp to use in animal feed production

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

Journal of Thermal Science and Technology

No. 5.

September.2000

19-21

7

Drying equipment & distillations systems enhance protein fish sauce.

Journal of Thermal Science and Technology

No. 2.

March. 2001

10-11

8

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

Research & development of sugar dryers in industrial sugar mills of Vietnam

Journal of agricultural engineering information

No.

April. 2004

15-18

9

Determination of drying time of spherical materials in fluidized bed drying by similarity methods

Journal of Thermal Science and Technology

No. 65

September.2005

11 - 12

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

10

Combined heat conduction and moisture diffusion of spherical material in the fluidized bed drying

Journal of Thermal Science and Technology

No. 72

November.2006

6 ÷ 8

11

Determine the geometric parameters of the salt particles to apply in fluidized bed drying

Journal of Thermal Science and Technology

No. 86

March. 2009

10 ÷ 13

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

12

Continuous refined salt fluidized bed dryer

Journal of Thermal Science and Technology

No. 88

July. 2009

9 ÷ 12

13

Determinesome of the basic physical parameters of refined salt particles to calculate and design a cont

Vietnam Journal of Mechanical Engineering

No. 146

September.2009

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

28 ÷ 31, và 48

14

Research of heat transfer from the air to particle to apply in the calculation of a continuous refined salt

Vietnam Journal of Mechanical Engineering

No. 146

September.2009

14 ÷ 17

15

Research of heat transfer from particle to surface heat exchange to apply in calculation a continuous ref

Vietnam Journal of Mechanical Engineering

No. 147

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

October. 2009

29 ÷ 33

16

Determinesome hydrodynamic parameters in the fluidized bed refined salt drying

Journal of Thermal Science andTechnology

No. 90

November.2009

13 ÷ 17

17

Determinationof the minimum air velocity in continuousfluidized bed refined salt drying

Vietnam Journal of Mechanical Engineering

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

No. 148

November.2009

19 ÷ 24

18

Determination the loss of pressure of gas get through the particles layer in continuous fluidized bed refin

Vietnam Journal of Mechanical Engineering

No. 149

December.2009

16 ÷ 22

19

bubbles fluidization while refined salt drying of continuous fluidized bed

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

Vietnam Journal of Mechanical Engineering

No. 1

January. 2010

65 ÷ 70, and 72

20

Determine a number of basic chemical-physical of the refined salt drying in the continuous fluidized bed

Vietnam Journal of Mechanical Engineering

No. 2

February.2010

42 ÷ 48

21

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

Designing of the gas distributor of continuous fluidized bed refined salt dryer

Journal of thermal Energy

No. 93

May. 2010

11 ÷ 16

22

Research and determine the shield height to set up the fluidized layer of continuous fluidized bed refined

Vietnam Journal of Mechanical Engineering

No. 6

June. 2010

24 ÷ 28

Written by rdtech

Friday, 28 December 2012 21:07 - Last Updated Wednesday, 18 May 2016 15:36

---

23

Research and designa software to use in calculation a continuousfluidized bed refined saltdryer

Vietnam Journal of Mechanical Engineering

No. 7

July. 2010

15 ÷ 19

24

Research ,designing and manufacturing a rice husks small-scalegasifier applies for household in the M

Vietnam Journal of Mechanical Engineering

No. 7

July. 2012

18 ÷ 22
