

Subject: “Researching, designing, manufacture a belt-drum presser for The biological mud or sludge treatment”

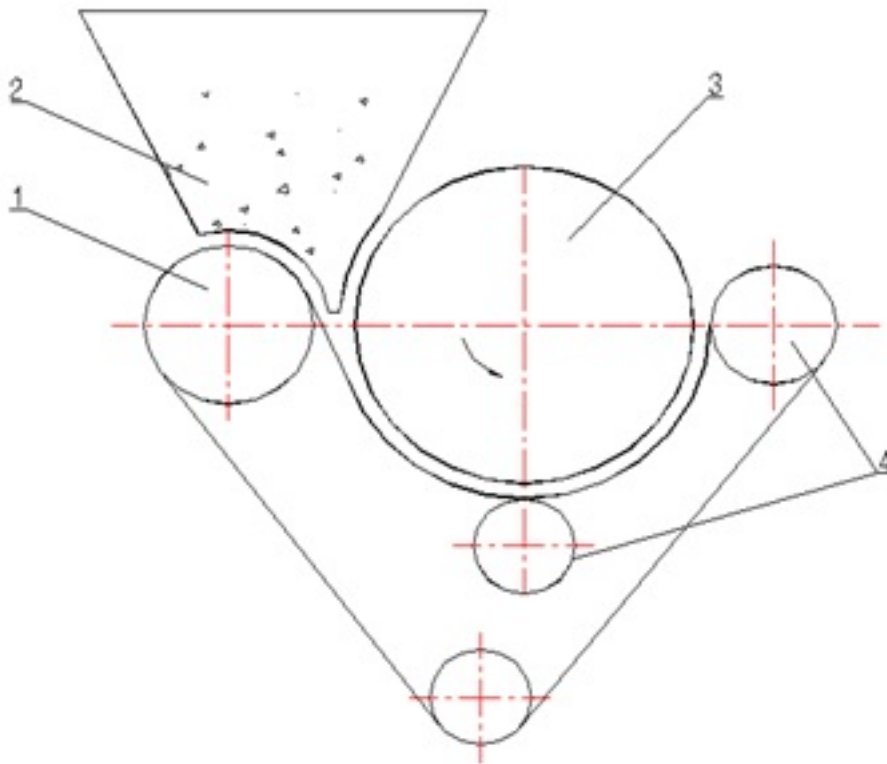

(The topic obtained the 3rd prize for the science technology creation competition of Ho Chi Minh city , 2000-2001)

TECHNICAL SPECIFICATION

- **Continuous drum-belt presser**
- **Dimensions: 2.000 x 1.3000 x 1.300 mm.**
- **Power consumption: 2,2KW motor**
- **Raw material Capacity : 2tons/hour**
- **Initial moisture: < 74 %**

- **Final moistural : 58-60%**

- **The waste sludge can be dried for other purposes**
